

Chinook Web Albums Service

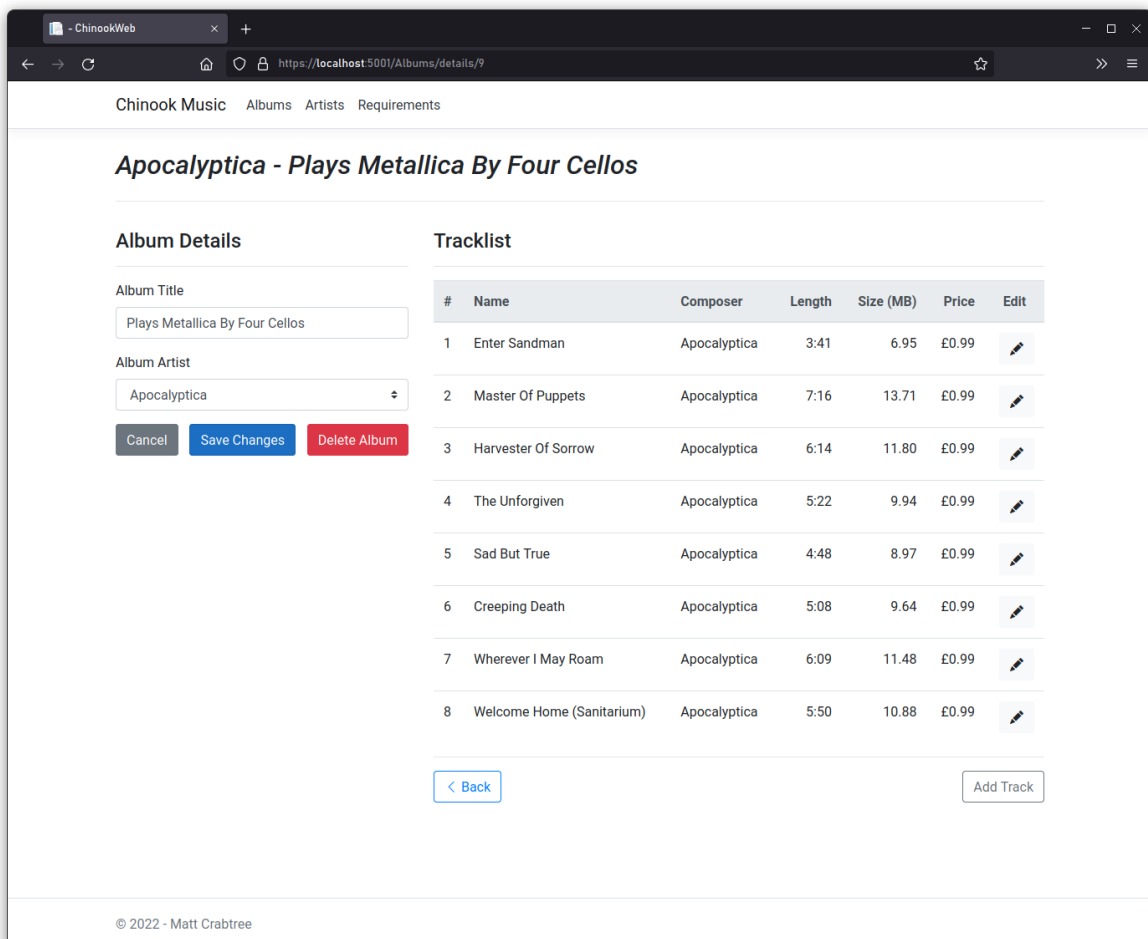

Album List

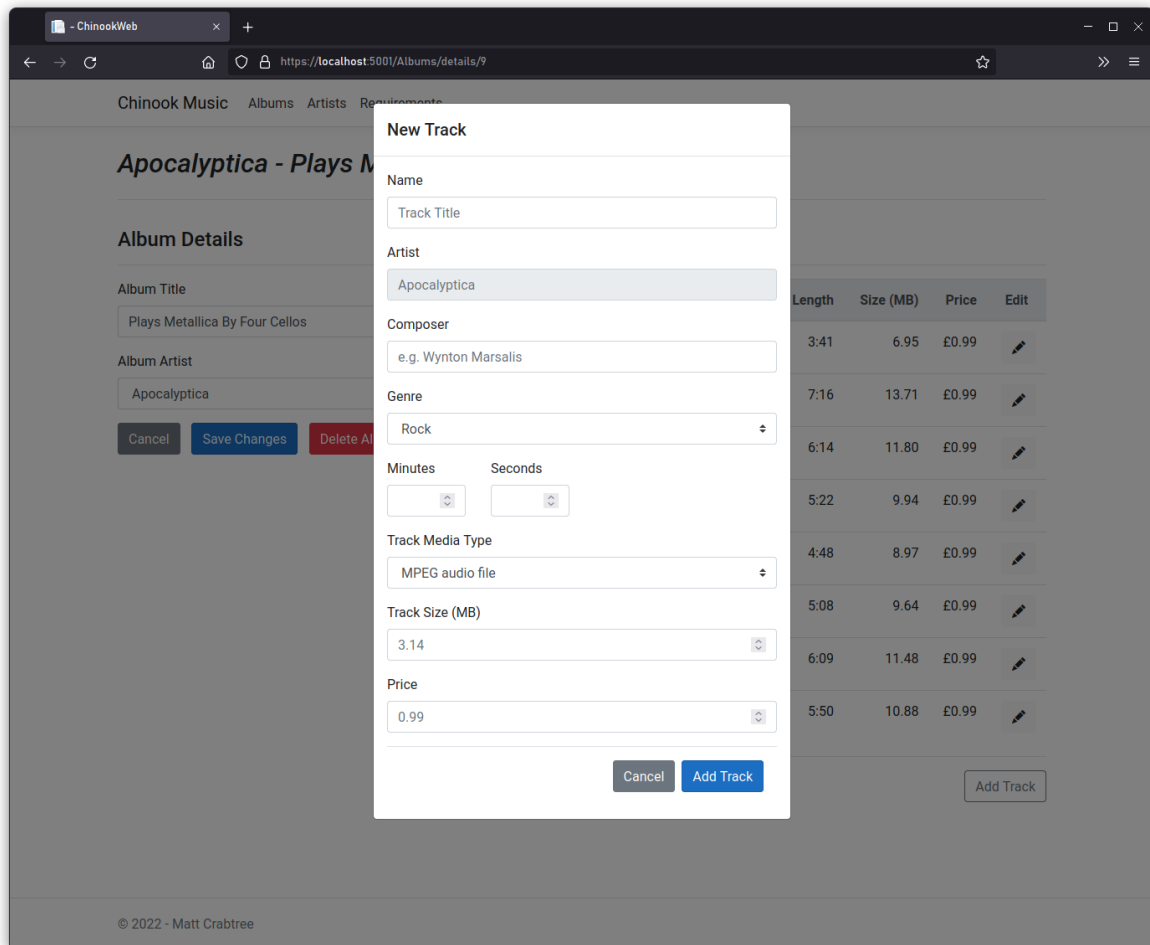

1. Navigate between albums and artists by clicking the appropriate word in the Top Bar
2. Search for albums by name using the search box
3. Click the table column headings highlighted in blue to sort by that column
4. Use the beginning, previous, next, and last buttons to navigate through the list of albums
5. Clicking "Add New Album" will allow you to do just that
6. Use the magnifying glass to view and edit an album's details (e.g. tracks, artist, name, etc.).
Clicking the trashcan will allow you to delete an album

Album Details

1. Modify the album's title and artist by changing the name manually and selecting an artist from the list
2. Click "Cancel" to revert all changes made, "Save Changes" to save your changes, and "Delete Album" to delete the album
3. Click "Back" to head back to the list of all albums
4. Click the "Add Track" button to add a track to the album

4. Manually input the track name and its composer. The album artist must be changed globally using the steps outlined in item 1.
5. Select a genre from the list
6. Add the track length in minutes and seconds
7. Choose the track's media type from a list of media types
8. Input the track's size in megabytes and its price in pounds
9. Click "Cancel" to dismiss the dialogue and "Add Track" to add the track to the album's tracklist

Add New Album

The screenshot shows a web browser window with the address bar displaying `https://localhost:5001/Albums/Create`. The page title is "Chinook Music" with navigation links for "Albums", "Artists", and "Requirements". The main heading is "New Album". Below this, there are three input fields: "Album Title" (a text box), "Album Artist" (a dropdown menu), and "Track List" (a table). The "Track List" table has two columns: "# Name". The first row has the number "1" in the first column and an empty text box in the second column. Below the table is a blue "Add Track" button. At the bottom of the form is a blue "Save" button. The footer of the page reads "© 2022 - Matt Crabtree".

Save

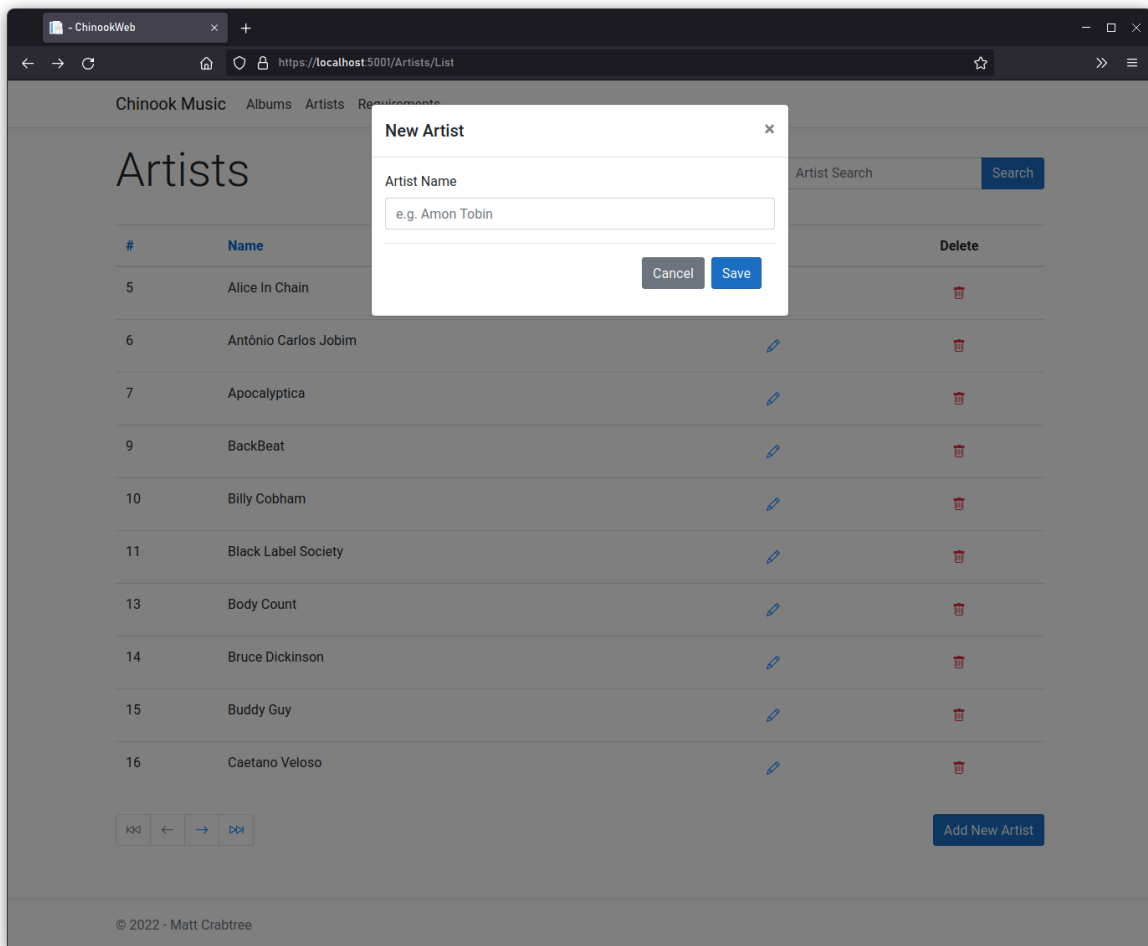

© 2022 - Matt Crabtree

1. Enter a name for the album
2. Choose an artist from the list of artists
3. Add the name of a track
4. If you want to add more tracks, click the "Add Track" button
5. When you're ready to save the album, click "Save"

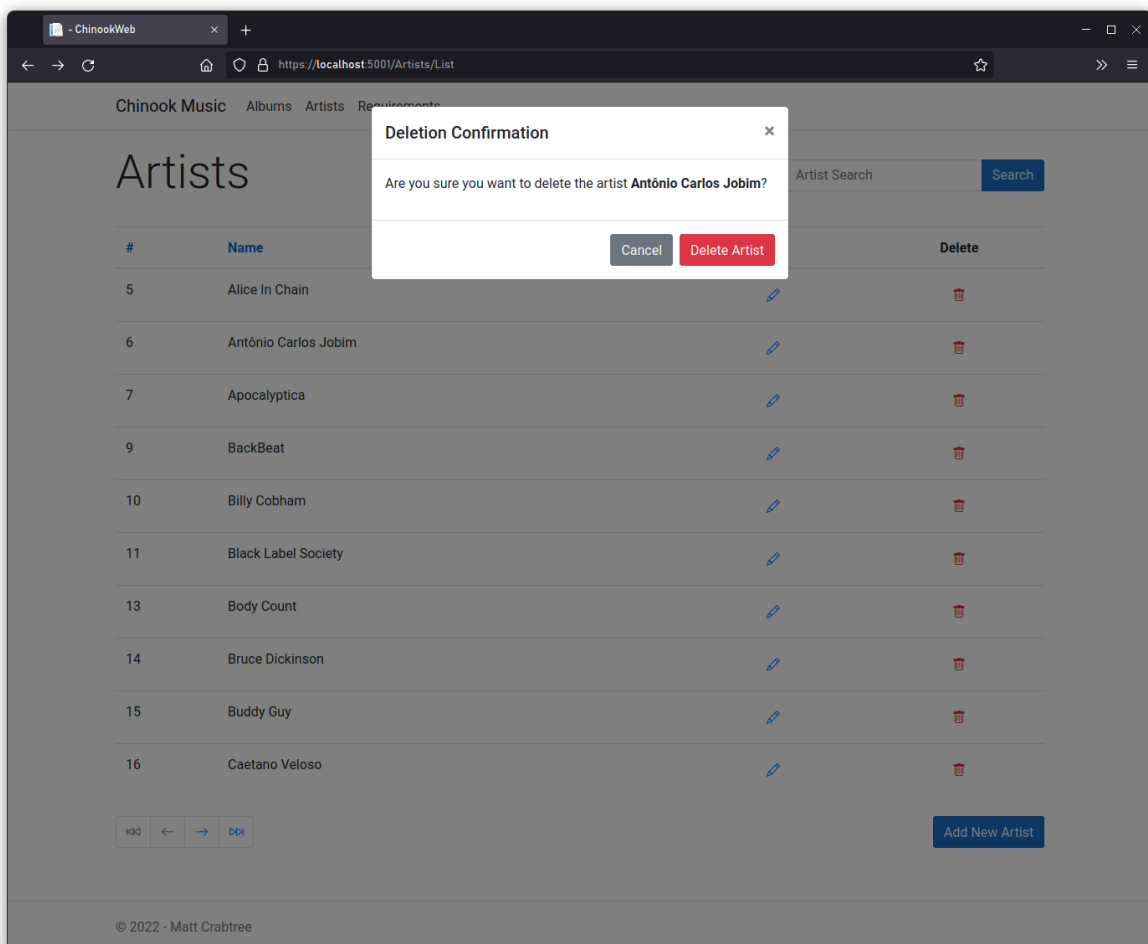

Artist List

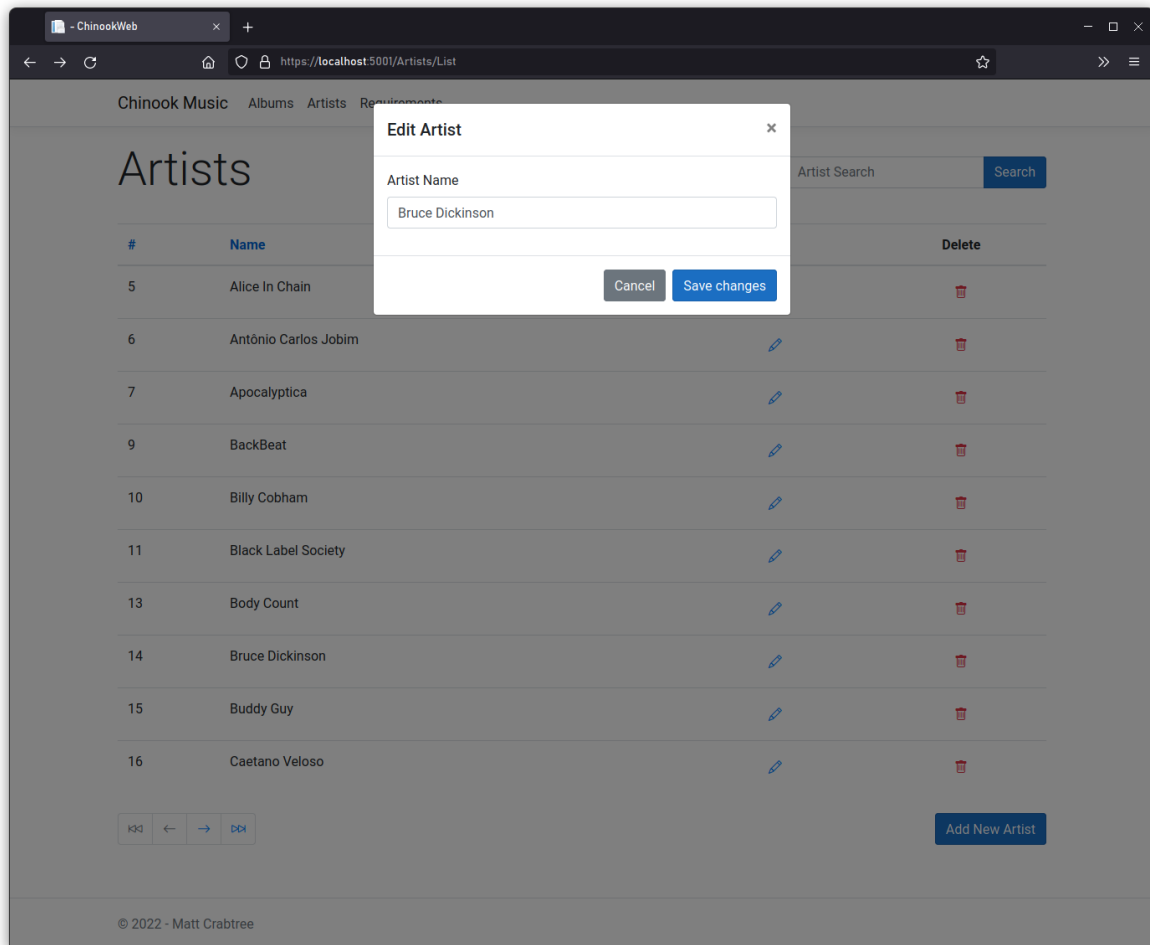

1. Navigate between albums and artists by clicking the appropriate word
2. Search for artists by name using the search box
3. Click the table column headings highlighted in blue to sort by that column
4. Use the beginning, previous, next, and last buttons to navigate through the list of artists
5. Clicking "Add New Artist" will allow you to create a new artist

6. Use the magnifying glass to view and edit an artist's name. Clicking the trashcan will allow you to delete that artist

NOTE: deleting an artist is an irreversible change. It will delete their albums and tracks and cannot be undone!

7. If you want to edit an artist, replace the artist name in the dialogue box with the desired name
8. Click "Cancel" to close the dialogue without saving changes and "Save Changes" to save all changes
